EDUCATION

Singapore Management University

Aug 2024 – May 2028

School of Computing and Information Systems

Bachelor of Science Information Systems – Double Major in Product Development and Cybersecurity

- GPA: Cum Laude (Distinction)
- Activities and societies: SMU Women in Tech , SMU .Hack , UWS STEMentorship 2025 (Mentee), SMU AI Club
- Competitions: Ellipsis Code# 2025, Ellipsis Tech Series 2025
- Module Distinctions: Algorithms and Programming, Business Process Analysis and Solutioning, Data Management, Economics and Society, Writing and Reasoning, Big Questions
- Teaching Assistant: Data Management

Temasek Junior College

Jan 2018 – Dec 2023

Integrated Programme (Science Stream)

- Member of Modern Dance Club: Won 67 1st place trophies for Dance in external competitions as a solo performer (Hip Hop, Ballet, Cha Cha and Bharathnatyam)
- Member of Infocomm Club: Provided photography and videography coverage for school events. Handled AV equipment setup and management, including mixers, lightboards, and stage monitors.
- Secretary of Indian Cultural Society: Led weekly team meetings. Effectively delegated tasks based on team members' strengths and interests. Initiated and maintained contact with renowned organisations like SINDA and Omkar Arts. Devised strategies to increase online presence and successfully tripled ICS' Instagram followers, boosted membership and opened opportunities for non-Indians, making ICS more inclusive. Organised large scale events for all students from Secondary 1 to JC 2.
- Executive manager of volunteering project
- Citizenship Ambassador
- Mathematics Representative

WORK EXPERIENCE

Eduspace

Aug 2024 – Present

Part-time tutor

- Tutoring students in various academic subjects with a focus on conceptual understanding and application.
- Organised and maintained detailed records of tutoring sessions, including students' progress, to track and report outcomes effectively.

Science Centre Singapore

Jan 2022

Student Intern

- Developed an interactive 'Young Engineer Trail' for primary students using digital tools in a group of 2.
- Created online modules for the 'Young Digital Fabricator' badge program.
- Took lead presentation role during final delivery after unforeseen team absence.
- Took ownership of end-to-end delivery after teammate withdrawal, ensuring on-time project completion under increased workload.
- Strengthened communication, problem-solving, and presentation skills in real-world scenarios.

Temasek Junior College

Jan 2023 – Jun 2023

Executive Manager of Volunteering Project

- Spearheaded volunteering project on improving digital literacy among the elderly.
- Coordinated logistics, communicated with stakeholders, and ensured the project's success.
- Created opportunities for positive growth for our team and communities.

PORTFOLIO

Questpass - Fair-access presale platform to combat ticket scalping

- Developed a presale platform where fans earn access through engagement-based quests (trivia, listening verification, mini-games), ensuring genuine fans get presale codes and artists build loyalty.
- Achieved Higher Distinction for the project during coursework.
- Technologies: Vue.js, Vue Router, Pinia, Bootstrap 5, Firebase (Auth, Firestore, Cloud Functions), Node.js, Spotify API, Gemini API, Jambase API, Google Maps API, EmailJS, Deezer API.

Factors Affecting Housing Prices in Singapore

- Conducted an in-depth analysis of residential property prices in Singapore by examining key factors such as location, flat type, floor area, lease duration, and proximity to amenities. Leveraged data transformation and cleaning techniques to uncover trends and pricing drivers.
- Achieved Higher Distinction for the project during coursework.
- Technologies: Tableau, Power Query, Excel, Pandas, Folium, Matplotlib.

Urbanix - AI-driven urban analytics and policy optimization system

- Designed and implemented the system architecture, with close team collaboration on debugging and validation. Implemented multi-objective optimization logic and Pareto frontier analysis to simulate and evaluate urban policy bundles. Developed data ingestion and transformation pipeline for Excel-based urban datasets and real-time visualization dashboards.
- Most Feasible Solution & Finalist in Hack For Cities Hackathon 2026
- Technologies: React.js, TypeScript, Tailwind CSS, Recharts, SheetJS (XLSX), JavaScript, Node.js, Web APIs, Ollama.

SKILLS

- **Language:** Proficient in English, Hindi, Oriya
- **Programming & Backend:** Python, JavaScript, TypeScript, PHP, Bash, Flask, APIs, Firebase, Node.js, Java
- **Web & Frontend:** HTML, CSS, React, Vue, Bootstrap, Tailwind CSS
- **Data & Analytics:** Excel, Power Query, Tableau, MySQL, MongoDB, Pandas, Matplotlib, Folium
- **Cybersecurity & Operating Systems:** Kali Linux, Metasploitable, Linux System
- **Others:** Figma, Signavio, Odoo, Azure, Docker, Oracle VirtualBox, Amazon AWS

AWARDS

- Most Feasible Solution and Finalist in Hack For Cities Hackathon-2026
- Bronze in Design Thinking with Robotics and Computational Thinking-2022
- Bronze in Queen's Commonwealth Essay Competition- 2022
- Bronze in Singapore Math Kangaroo Competition- 2022, 2023
- First nationwide for Hindi examinations- 2016
- Gold in International Singapore Maths Competition- 2017
- Honourable mention in International Bebras Challenge on Informatics- 2022
- Silver in International Science Competition- VANDA 2019
